NOTIFICATIONS.

Fort St. George, September 6, 1924 (G.O. Mis. No. 647, Finance).

No. 133.—The revision of pay of non-gazetted officers and menials which commenced in 1921 has resulted in a large number of excess drawals of pay the great majority of which is discovered long subsequent to the overdrawal. Representations have been and continue to be made to Government praying for the waiver of recovery of such overdrawals, and orders have from time to time been issued authorising waiver in specific classes of cases or in specific departments, e.g., Memorandum No. 1712 C-1, Finance, dated the 18th May 1922, G.O. No. 1205, Law (General), dated the 17th May 1922, and G.O. No. 388, Law (Education), dated the 12th March 1923. Individual cases which could not be dealt with under these general orders have also been disposed of on their merits.

2. The Government have now decided that the following principles shall be observed in future in determining the eligibility or otherwise for waiver of overdrawals :—

Recovery may be waived in the following instances :—

(1) Where the overdrawal was due to delay in the issue of orders by Government or in the communication of the orders to heads of departments.

(2) Where the overpayments were made under the orders of Government, e.g., when Government accepted incorrect proposition statements.

(3) Where the overpayments were due to the scales originally accepted by Government being subsequently reduced.

(4) Where death supervened or the officer concerned retired or was discharged before the recovery had been effected in whole or in part.

3. Recovery shall be effected in all cases which do not fall within the above provisions. Doubtful cases should be referred to the Finance Department.

4. The Government will however be prepared to make exceptions in the case of menials, should the circumstances of the individual case warrant such exception being made.

5. It is not intended to reopen cases on which final orders have already been passed by Government.

No. 894.—Cases have been recently brought to the notice of the Government in which a district board paid to contractors for local fund works, bonuses in addition to the amounts payable under the agreements entered into with them. The payment of a bonus is not authorized by any rule or executive instruction and is irregular. The fundamental principle governing payments to contractors for works executed by them is that the rates at which payments are made should not exceed those provided for in the contract agreements. If, however, the rates entered in the agreements are in any case really found unworkable and there exists sufficient justification for revising them it is the duty of the Engineer or other officer concerned to bring the matter promptly to the notice of the district board, prepare a revised estimate and have a revised agreement executed providing for the higher rates. When this course is not followed but payment is made at rates in excess of those in the contract agreement, the payment becomes an extraordinary charge which should not be incurred without the sanction of the Government.

No. 896.—The grant of advances for the purchase of conveyances under articles 156 and 157 of the Civil Account Code, Volume I, 5th Edition, can be sanctioned by the Government only when they consider that it is in the interests of public service that the officer concerned should use the conveyance in the discharge of his duties. Though the pay of the District Board Engineers is met by Government they are serving under district boards and their travelling allowances (except for journeys on transfer) is paid by the district boards. The touring work done by these officers is in the interest of the district boards and therefore the Government consider that it is but equitable that advances for the purchase of conveyances the maintenance of which mainly facilitates their touring and increases their efficiency to the district boards, should be sanctioned from the funds of the district boards themselves. The Government will however be prepared to consider applications for the grant of such advances from provincial funds on special cases in which the district boards do not grant them from their funds.

No. 897.—In G.O. No. 1068, L. & M., dated 25th April 1924, it was declared that the service of a District Board Engineer under district boards prior to 1st March 1924 would count as duty performed for purposes of leave under the Fundamental Rules. As some doubts have been expressed as to the exact scope of this order, the Government are pleased to rule that the service rendered by a District Board Engineer prior to 1st March 1924 not only as a District Board Engineer but also as a Local Fund Assistant Engineer will count for leave, if the total service is continuous.

Fort St. George, September 11, 1924 (G.O. No. 2511, L. & M.)

No 899.—Executive instruction (403) of the Local Boards Manual requires that in the case of schedule contracts the tenderers should always be required to tender at a fixed percentage below or above the rates in the estimate for all works without specifying a rate for each item of work. The system is open to objection. It implies that the contractors should have access to the estimates and schedule of rates before they tender. It has often been found that the schedule of rates itself is defective and not brought up-to-date. The Government consider therefore that the system should be modified and that the contractors should tender for the rates which from their experience represent a reasonable price for the work they are required to carry out. The following will therefore be substituted for executive instruction (403) of the Local Boards Manual :—

"In the case of schedule contracts, the tenderers should be required to tender in respect of each item of work of the schedule.

Before tenders are invited for the execution of a work on contract the District Board Engineer must prepare 'contract documents' to include

(1) a complete set of drawings showing the general dimensions of the proposed work and, so far as necessary, details of the various parts ;

(2) a complete specification of the work to be done and of the materials to be used unless reference can be made to some standard specification ;

(3) a schedule of the quantities of the various descriptions of work ;

(4) a set of 'conditions of contract' to be complied with by the person whose tender may be accepted.

Note.—In the case of lump sum contracts, no schedule of quantities will be prepared by the District Board Engineer. Tenderers should prepare their own schedules to arrive at a lump sum.

2. The above instructions should be followed in the case of schedule contracts for municipal works also.

Fort St. George, September 16, 1924

No 900.—Under section 60 (3) of the Madras Local Boards Act, 1920, it is hereby notified that from and after the date of this notification the lands mentioned below situated in the Parthiparam village of Tiruvottiyuram union of Cheyyar taluk of North Arcot shall be excluded from the operation of the Act :—

No. 901.—In Memorandum No. 24021-1, L. & M., dated 1st December 1923, chairmen of municipal councils were informed that the Government proposed to have the rules for the conduct of election of municipal councillors translated and they were requested to report the number of copies they required and the vernaculars in which

they wanted them. They were at the same time informed that the cost of printing would be rateably recovered from the municipal councils that indented for the copies.

2. All municipal councils, except Tirupati, Mangalore, Negapatam and Tanjore have sent in their replies and it is observed that the Kodaikanal, Srivilliputtur and Tiruvalur Municipal Councils do not require any copy. The other councils require 1,131 copies in Tamil, 1,188 copies in Telugu, 200 copies in Malayalam, 50 copies in Kanarese and 22 copies in Oriya.

As only a small number of copies are required in Kanarese and Oriya the Government will leave the councils concerned to make their own arrangements to have the rules translated in those vernaculars.

4. The Superintendent, Government Press, is requested to print copies of the rules in Tamil, Telugu and Malayalam and distribute them to chairmen in accordance with the appendix to this order and recover the cost from them. The number of copies to be printed may be a little more than the number to be distributed so as to meet further requisitions.

G O Ms. No. 669, FINANCE (LOCAL AUDIT), dated 8th SEPTEMBER 1924.

Read—the following papers:—

(i)

G.O. No. 269, Finance, dated 2nd April 1924.

(ii)

From the President, District Board, Ganjam, R G.C. No. 403 D.B, dated 16th May 1924.

ORDER.

The President, District Board, Ganjam, reports that Assistant Engineers in his district have cheque drawing powers and that after vouchers are received from them, covering lists have to be prepared in the District Board Engineer's office, and that it will not be possible for the District Board Engineer to send the vouchers to the District Inspector for audit in three batches as required by G.O. No. 269, Finance, dated 2nd April 1924, unless covering lists are prepared three times in a month and that even then the schedule of expenditure which should accompany the covering lists can be sent only once in a month after the accounts are closed.

2. The Government Order read above does not contemplate any change in the compilation or submission of the accounts. As soon as paid vouchers with the extract from the cash book are received from the Assistant Engineers having cheque drawing powers, they should be checked with the entries in the extract from the cash book received and if they are found to agree and to be otherwise in order, they should be included in the list of vouchers to be sent by the District Board Engineer to the District Inspector. If the first or second batch of the Assistant Engineer's vouchers is not received in time for inclusion in the District Board Engineer's list, there is no objection to the inclusion of such vouchers in the second or third list.

DEPARTMENT OF AGRICULTURE.

THE INDIGO CROP OF 1923-24.—FIRST REPORT.

[On an average of the five years ending 1922-23, the area under indigo in the Madras Presidency has represented 42·2 per cent of the total area under indigo in British India.]

The area sown with indigo in the Madras Presidency up to the end of August 1924 is estimated at 42,700 acres against 64,700 at the corresponding date of last year, a decrease of 34 per cent.

2. The decrease in area is fairly general. There is very little demand for the dye and the exports have fallen considerably.

3. The crop has been affected by drought to some extent in Vizagapatam, Kistna, Cuddapah, Chingleput, Chittoor and North Arcot. It is fair in the other districts.

4. There is no reliable information as to the percentage of the crop actually manufactured into dye. But if the whole crop were manufactured into dye, the possible yield would be about 320 tons against 760 tons estimated at the corresponding date of last year. As a matter of fact, however, a large proportion of this crop is grown merely as a convenient form of green dressing and it is cut and ploughed into the soil. This is a practice which is annually on the increase and is especially the case in Salem and Trichinopoly but also applies to other districts where by no means all the crop is grown for dye.

5. Figures by districts are appended below :—

DEPARTMENT OF AGRICULTURE.

CULTIVATION STATEMENT—APRIL TO JUNE 1924

(On an average of the five years ending 1923–24, the area sown from April to June represents five per cent of the cultivation on dry lands and ten per cent on wet lands.)

General.—The South-West monsoon commenced early in June on the West Coast and the Hills and gave heavy and continuous rains except for a short break towards the end of the month. Good rains were received in Coimbatore in the first fortnight. The rainfall was up to the average in Anantapur, Chittoor, and Salem. The monsoon was late and feeble in other districts, especially in the Circars.

Irrigation water was generally insufficient for standing crops except in the deltas and the West Coast. Most of the rainfed tanks were either empty or contained scanty supplies. Freshes in the Krishna were received in time while no freshes were received in the Godavari in the month.

The main crops sown in the month were paddy in the West Coast, and cholam, cumbu, ragi, and groundnut in Vizagapatam, Anantapur, and parts of the Central districts. Other crops were sown in Salem, Coimbatore, and Madura, sugarcane in Vizagapatam and Chittoor, and gingelly in parts of the Circars.

2. *Dry lands*.—The area sown from April to June 1924 was 18 per cent above the average and 45 per cent above last year owing to the fairly good rains in April and May following last year's bad season. The increase in area is most marked in Kurnool, Salem, and Coimbatore.

3. *Wet lands*.—The area sown from April to June was normal but greater than last year by six per cent. There was a decrease in area in the Carnatic districts owing to the scanty supply in tanks but this was more than counterbalanced by the increase in Malabar and South Kanara.

4. Figures by districts are given in the statement appended.

Madras, 29th August 1924.

Notes on retail prices for June 1924.—The average retail prices of food-grains showed a tendency to rise in June 1924 owing to the poor harvests of 1923-1924. There was a rise of about five per cent in the price of rice in Chingleput, South Arcot, Tanjore, and Tinnevelly, cholam in Guntur and Coimbatore, and cumbu and ragi in Trichinopoly. The price of cumbu rose by more than 20 per cent in Tanjore.

2. As compared with June 1923, prices were appreciably higher in Ganjam, Vizagapatam, and Godavari and the Deccan and Central districts. The price of rice was also higher by more than ten per cent in Chingleput, South Arcot, and Tanjore, cholam, in Kistna, Guntur, and Madura, and Cumbu in South Arcot, Tanjore, and Madura.

Prices were lower in the case of cholam in Ramnad and dry grains in Tinnevelly.

Act No. 31 of 1924.—The Tuticorin Port Trust Act—Tamil.

Bills to be introduced in the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

Under rule 20 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information :—

BILL No. 15 of 1924.

A Bill to amend the Madras Local Boards Act, 1920.

WHEREAS it is expedient to amend the Madras Local Boards Act, 1920; It is hereby enacted as follows:—

1. This Act may be called the Madras Local Boards (Amendment) Act, 1924.

2. For the words "for all or any of the purposes specified in section 113 of this Act subject to the conditions laid down in that section" in section 236 of the said Act the following words shall be substituted: "either for all or any of the purposes specified in section 113 of this Act, subject to the conditions laid down in that section or with the previous sanction of the Local Government, for capital expenditure on roads and bridges."

STATEMENT OF OBJECTS AND REASONS.

There are several district boards in the Presidency which have to their credit varying sums accumulated out of the proceeds of the railway-cess imposed by them under section 67 (1) of the Madras Local Boards Act, 1884, or out of investments of such proceeds. As the railway-cess was abolished by the Madras Local Boards Act, 1920, some, at least, of the district boards are unable to utilise that money for carrying out any railway schemes or for other transport services. The provisions of section 236 of the Act prevent the district boards from utilizing such sums for purposes other than those specified in section 113 of the Act, though they stand in need of large sums for capital expenditure on roads and bridges and though they cannot provide for such expenditure from their general revenues.

The object of this Bill is to remove the difficulties created by section 236 of the Local Boards Act, 1920. This Bill gives discretion to the local boards to utilize such sums either for the purposes specified in section 113 of the Act or for capital expenditure on roads and bridges provided that they obtain the previous sanction of the Local Government for incurring such expenditure.

The previous sanction of the Local Government is a sufficient safeguard to secure that the local boards explore the possibility of developing railway, tramway, ropeway, motor omnibus or other transport services before they utilize such money for capital expenditure on roads and bridges.

BILL No. 15 of 1924.

Under rule 18 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information :—

A Bill to determine the salary of the President of the Madras Legislative Council.

WHEREAS in accordance with sub-section (5) of section 72 C of the Government of India Act the salary of the elected President of the Madras Legislative Council is to be determined by an Act of the said Council; It is hereby enacted as follows :—

Short title.

1. This Act may be called the President's Salary Act, 1924.

Salary of elected President.

2. There shall be paid to the elected President of the Madras Legislative Council a salary calculated at the rate of two thousand rupees a month.
